# EVENING BULLETIN

3:30 EDITION No Honolulu housewife need worry over bargains missed if she reads Bulletin Ads.

No other newspaper published in Honolulu presents to housekeepers as large a list of mercantile houses as the Evening Bulletin. To the live, keen buyer that means money saved.

VOL. XI. NO. 4363.

10 PAGES.—HONOLULU, TERRITORY OF HAWAII, FRIDAY, JULY 16, 1909.—10 PAGES.

PRICE 5 CENTS.

## MOONSHINER IS CAPTURED

### RAPID TRANSIT EXTENSION ASSURED

## AHMED NIRZA IS SHAH

TEHERAN, Persia, July 19.—The National Assembly, including the Nationalists' leaders, have proclaimed the Crown Prince Ahmed Nirza as Shah of Persia. Azad Ul Mulk has been made regent.

## C. B. Crane To China

WASHINGTON, July 16.—Charles B. Crane, a leading manufacturer of Chicago, has been appointed United States Minister to China.

## Park Is Bought

At a meeting of the directors of the Rapid Transit Company, held last evening, it was decided to take over the Baseball League ball grounds at a cost of \$2000. This sum will enable the League trustees and ball teams to get out of debt. The Rapid Transit have no idea of running the ball ground as an amusement park, but will put in a caretaker who will keep the grounds up as in the past. Should anyone want to pull off a sports meeting or a ball game the grounds will be rented at a very reasonable rate to them.

New Athletic underwear, B. V. D. goods, new shirts and pajamas, in light weight and pretty colors. A fine lot of new suitings at Yee Chan & Co.'s, King and Bethel street.

An employment bureau in New York reports that in one year only seventy-five men who are past 59 years of age were put to work out of a total of 193 such applicants.

## QUICK CAPTURE OF MOONSHINER

Caught By Breckons After Local Officers Failed

WAS ONCE ARRESTED BUT NO CHARGE MADE

Queer Case Unearthed by Internal Revenue Department on Kauai—Clever Work by Federal Officers.

Notwithstanding the local authorities claimed they could not locate the keeper of an illicit still on Kauai, when his arrest was recently requested by Walter Drake, United States Internal Revenue Collector, by a clever and strategic maneuver United States District Attorney Breckons and United States Marshal Hendry captured Toyofuki, the much-wanted man, at Wailawa this morning at 3 o'clock, after driving overland from Nawiliwili, a distance of twenty-five miles.

The case was worked up by C. M. Thomas, Revenue Agent from San Francisco, and Division Deputy J. W. Doyle, who have just returned from Kauai with the "evidence," to-wit: ten gallons of high-proof spirits and a complete still equipment. In the course of their investigation, the two officers found that Toyofuki had been arrested in April by the local authorities, but no charge was placed against him of running an illicit still. The Japanese was released on \$200 bail, and his trial (Continued on Page 6)

## TROUBLE ENDED AT WAIMANALO

In connection with the recent riot at Waimanalo, no further trouble is anticipated and Sheriff Jarrett has withdrawn the large force of armed men who were stationed there.

## Alligator Pears Pineapples Bananas

No better time in the whole year to ship them than right now.

Island Fruit Co., 72 S. King. Phone 15

## ORDER PLACED For EXTENSION

—L. TENNY PECK

Negotiations Closed Yesterday By Rapid Transit for Construction of Line Through To Pearl Harbor—Ballentyne Places Order for Material

All negotiations relating to building the extension of the Rapid Transit line to Pearl Harbor were closed at yesterday's meeting of the Rapid Transit Company. The Army and Navy officials have granted the permits, the contract between the company and the Board of Public Works will soon be signed, and the speedy building of the new road is assured. Manager Ballentyne, who is on the mainland, has been authorized to let the contracts for building material.

In regard to the new extension, President L. Tenny Peck of the Rapid Transit Company said in an interview this morning:

"I have received advices from Washington to the effect that the Army and Navy Department granted the permits requested by the Pearl Harbor Traction Company, which is the extension of the Rapid Transit line to the new naval station. The Fort Shafter permit was referred to the Army and Navy department by the local board, with recommendations, and a hearing was granted. To the President of the Rapid Transit line certain mutual concessions were made, so that the speedy building of the road is now assured.

"The contract of the company with the Superintendent of Public Works will probably be executed shortly, which is the last formality prior to actual construction.

"Arrangements have been made for the necessary construction material, pending the conclusion of negotiations for military permits, etc., and orders for this will be placed by the manager, Mr. Ballentyne, who is now on the mainland."

Thus another mile stone has been reached in the commercial progress of the city. The extension of the Rapid Transit line to Pearl Harbor means a great deal not only to the merchants and citizens of Honolulu, but to the military authorities and to the officers and men who are stationed at various infantry, naval and artillery posts, all the way from Pearl Harbor to Diamond Head. The new extension will give them a continuous line of travel to every station and point in the city, affording

ready means of inter-communication to officers and men stationed at Diamond Head, at Fort Shafter, Fort De Russy, Pearl Harbor and at Puu-uhonua, a very important benefit and convenience.

## BIG WATER PROBLEM AT PEARL HARBOR

Bridge Company Man Finds Unexpected Volume of Water—Needs Expensive Pumps—Many Contracts To Be Let in Honolulu For Material and Labor

An unlooked-for feature in the building of the naval dock at Pearl Harbor is giving the San Francisco Bridge Company, who have the contract with the government, serious concern. A larger amount of water will have to be pumped than was at first thought necessary, and to do this expensive machinery will be required, which will make the contract far less profitable for the company. The work will probably begin within a month, and while all the expert labor will be sent from the mainland, work for at least a hundred men here will be furnished during the construction of the dock.

"The unusually large amount of water that we will have to pump out in constructing the naval dock at Pearl Harbor is going to prove a much more expensive proposition

than we thought when the contract was signed," said President S. G. Hinde of the San Francisco Bridge Company this morning. Mr. Hinde said that a number of expensive centrifugal pumps will have to be installed in order to dispense with the water so that construction work can proceed.

While Mr. Hinde could not give a definite date as to when the construction would begin, he thought it would be within a few weeks. He is now making a thorough preliminary examination of the site, and upon his return to the mainland he will at once prepare orders for material to be shipped. He says that most of the construction material will be transported by regular freight carriers, but that a large amount of small material will be purchased in Honolulu.

## BENEFICIAL LAWS ARE IN ORDER

Lepers Provided For In Many Ways Under New Rules

President E. A. Mott-Smith of the Board of Health has been much in conference lately with Attorney General Hemenway over the new laws relating to the examination and care of lepers. Vastly different changes will be made in the present system of conducting matters connected with this large and important branch of the Board's work.

Forty thousand dollars will be expended in building a new hospital at Kailahi for the care of lepers for the first six months after their examination, and also, if their case is

hopeful, they may be treated there later, providing there is any possibility of improvement. Obsolete or unworkable ones will forfeit this right and be sent at once to Kalaupapa.

A new method of examination will also be placed in force providing for two methods of examination, arbitration and agreement. In the former, one physician will be appointed by the patient, one by the alleged leper and the other by the two already appointed. The latter method is for amicable patients who leave their case to the judgment of the board.

The Federal authorities will work in co-operation with the Territorial Board, and a laboratory to be built for their use by the Territory is already under way at Kailahi, John Oudekirk having the contract.

Lepers have now the right for a re-examination after a year has expired. The new laws are summed up as being more beneficial and at the same time firm and fully protecting both the public and the patient.

While making twenty-one miles an hour 544 miles east of New York the North German Lloyd liner Kaiser Wilhelm der Grosse lost a blade of her propeller.

Eighty superintendents of telegraph of leading railroads met in Detroit in annual convention. Dispatching trains by telephone was discussed.

## KINNEY'S ADDRESS MASTERLY GIVEN

Flaw After Flaw Picked In Testimony Of Japanese

HISTORY OF RIOT AND TRIAL IS GONE OVER

Condemning Argument Will Be Followed by Address of Lightfoot—Trial Is Almost Over

Kinney continued his address before the jury trying the riot trial all morning and is expected to be followed by Lightfoot this afternoon. It is not likely that the jury will be locked up for deliberation until tomorrow.

The trial was held this morning in the court-room of Judge Whitney. Judge Robinson still presiding. The change was resultant from a request of Lightfoot to have the window which backed the jury in the proper courtroom darkened as a bright glare comes through that is damaging to the eyes. The change is for the balance of this trial only.

Kinney resumed his argument and went carefully, foot by foot over the 800 pages of testimony with the jury, explaining the law on each point minutely. His address was masterly and able and he, to all appearances, built up a solid wall of damning argument around the ten alleged Japanese rioters.

He paralleled the testimony of the Japanese with that of Scoville, Bull, Willis and the other witnesses for the prosecution, and laid irrevocably bare the fabric of falsehood that the Japanese had offered and overdone.

In at least five cases he picked out flat contradictions in the testimony of the Japanese that under ordinary circumstances would render entirely worthless the balance, wherein the defendants sustained themselves.

In one case, the most flagrant, he told, and read from the testimony, how Mitsuichi stated emphatically that Takiyama had not been in the office of the Higher Wage Association during the time when Scoville and Willis were practically prisoners there while holding Jotaro Mikawa. Takiyama gave practical demonstrations on the stand how he had sat closely to Scoville, presumably smoking peacefully but to all intents a guard on the police officer.

Kinney denoted Mitsuichi as the born leader among the Japs and rent from end to end the sustained testimony whereby Mitsuichi was pictured as a saving angel, protecting the officers. He went over carefully the psychological condition of the men who constituted the mob and who were in the neighborhood; showed how Mitsuichi recognized that, as the leader of the Japanese, he would be called upon to answer for the murder of the officers, should it come to that; how he pacified the men and under cover of the Japanese language commanded by voice and under cover of the darkness

## FLEET SAILS SEPT. 5

SEATTLE, July 16.—It was stated here today that the Pacific fleet, in command of Admiral Seebree, will sail for Honolulu on September 5. The ships are bound for an autumn and winter cruise to the Orient and the Philippines.

## 300 Killed

LONDON, July 16.—Reports received here today state that the dead and injured from the earthquake in Greece yesterday number three hundred souls.

## MOORS ATTACK SPANIARDS

MADRID, July 16.—Eighteen hundred tribesmen are preparing to attack the Spanish position at Melilla. The Moors' camp was bombarded by the Spaniards a few days ago in retaliation for the murder of four Spanish workmen.

## AFFRAY AT AIEA ENDS SERIOUSLY

Porto Rican Wounded And Now Lying In Hospital

As a result of the affray at the Aiea plantation last night Ramon Martinez lies in the hospital today suffering from serious wounds caused by a knife. The assailant is stated to be Pedro Capa, who is at present lying in durance vile and will be brought up for trial as soon as the wounds are sufficiently healed to permit of his appearing in court.

About 8:30 last night word of the affray was sent in to headquarters, and Chief Leal immediately jumped on his motor cycle and proceeded to the plantation. The affair had by that time terminated, but the Chief at once instituted a search throughout the camp with the result that Capa was driven out. His escape, however, was cut off, outposts having been placed to prevent any means of egress, and Police Officer Spencer caught him on the run and placed him securely under arrest.

On inquiry at the hospital today it is learned that Martinez is making satisfactory progress.
